Bill Analysis

SB 1777 states that no provider shall be eligible for reimbursement through Medicaid or any other public funding if that provider performs gender transition procedures. If the provider can show that they and their affiliates have not performed any gender transition procedures within the last 5 years, the provider shall be eligible for reimbursement. The measure directs the Oklahoma Health Care Authority to investigate a complaint within 60 days of its receipt and to issue a determination of whether a provider has committed a violation of the provisions of this measure.
