

Bill Summary
1st Session of the 59th Legislature

Bill No.:	SB 206
Version:	INT
Request No.:	414
Author:	Sen. Dahm
Date:	01/09/2023

Bill Analysis

SB 206 directs the Department of Environmental Quality to promulgate rules for the purpose of creating a regulatory environment for a qualifying entity to construct a nuclear power plant. Such a plant must comply with federal and state requirements. The Department shall approve or disapprove applications for the construction of such a plant. The measure outlines the content of the application. Any plant approved to construct a plant must also construct a facility within the same 5-digit postal code of the proposed plant location with sufficient capacity to receive the spent fuel from the plant.
