Bill Analysis

SB 25 directs each school district beginning with the 2023-24 school year to receive an amount equivalent to \$1,200.00 for each member of the district's support personnel. The measure directs each school district board of education to distribute the funds to provide a one-time pay increase to each support personnel member or to provide a one-time pay increase in an amount determined by the board based on employee performance or the need to retain employees in high-demand positions. The measure also prohibits a district from lowering the number of support personnel hours to make them ineligible for the pay increase, and it prohibits a district from requiring support personnel to work more hours to be eligible for the increase.
