Bill Analysis

SB 323 provides that Service Oklahoma must check information made available by the National Highway Traffic Safety Administration to determine whether the motor vehicle is subject to an open recall prior to issuing a motor vehicle registration or mailing a motor vehicle registration renewal notice. If the vehicle is subject to recall, Service Oklahoma shall provide the owner of the vehicle notice of all open recalls applicable to the motor vehicle. The owner shall be required to effectuate the necessary repairs prior to registering the vehicle after receiving the notice of recall from the Service. The Director of Service Oklahoma is required to extend the registration period of a vehicle subject to an open recall for which parts or equipment to repair the open recall are unavailable.
