Bill Analysis

SB 659 provides that a 5-year allocation of the maximum annual yield of the basin or subbasin may be approved for a regular permit beginning January 1, 2024. Applicants shall be required to submit annual usage as determined by a metering system proposed by the applicant and pay the annual permit fee. The applicant may exceed the annual maximum annual yield in any year of the allocation period with the Water Resources Board's approval if the applicant adheres to the cumulative maximum annual yield for the basin or subbasin over the period.
