Fiscal Analysis

HB 3828 requires OMES to inventory all systems that use AI by the end of 2024. State agencies that do not use OMES must inventory their own systems and post the inventory list on their website. Any state agencies using AI is required to perform assessments of their AI systems to ensure the systems do not discriminate. OMES anticipates a need of between \$3,000,000 and \$5,000,000 to comply with the requirements of the bill. OMES is currently in the process of identifying agencies that do no use OMES IS services and also use AI systems.
