13 that it may be located and distinguished from other lands.

14 2. Transmission lines shall be plotted on a location map
15 submitted with the application. A statement that the operator has
16 the right and power by legal estate owned to mine by surface mining
17 the land so described shall be included with the application.

18 D. 1. Any operator desiring to engage in underground mining
19 shall make written application to the Department for a permit.
20 Application for such permit shall be made upon a form furnished by
21 the Department. The form shall contain a description of the tract
22 or tracts of land to be used as refuse disposal areas. The

24 which the land is located and shall otherwise describe the land with

1 sufficient certainty so that it may be located and distinguished
2 from other lands.

3 2. A statement that the applicant has the right and power by
4 legal estate owned to use the land so described as a refuse disposal
5 area shall be included with the application.

6 E. Each application for a permit under subsections C and D of
7 this section shall be accompanied by a plan of reclamation of the
8 affected land that meets the requirements of the Mining Lands

11 type of revegetation, and shall include the approximate time of
12 grading and initial revegetation effort.

13 F. Each application for a permit under subsections C and D of
14 this section shall be accompanied by the bond or security meeting
15 the requirements of Section 728 of this title, or proof that such

19 anniversary date of the year in which the permit or permit renewal
20 was issued. All application fees shall be submitted to the State
21 Treasurer, who shall deposit them in the Department of ~~Mines~~
22 Environmental Quality Revolving Fund.

23 G. 1. Upon the receipt of such application, bond or security
24 and fee due from the operator, the Department may issue a permit to

1 the applicant which shall entitle the applicant to engage in mining
2 on the land therein described in accordance with the rules
3 promulgated by the Department, for the life expectancy of the
4 operation unless the operator is in violation of any state statute
5 or rule of the Department in which case the Department shall take
6 appropriate action against the operator.

7 2. All applications for renewal of existing permits shall be
8 filed prior to the expiration of the existing permit in accordance
9 with the rules promulgated by the Department.

18 may be adversely affected ~~located within one (1) mile of~~ by the
19 mining operation shall have the right to protest the issuance of a
20 permit and request a ~~public~~ formal hearing.

21 3. The Department shall notify the surface owners of any
22 hearings in connection with applications or permits in the same
23 manner as the operator is notified.
24
25

1 4. Such protests must be received by the Department within
2 fourteen (14) days after the date of publication of the newspaper
3 advertisement. If a ~~public~~ formal hearing is requested, the
4 Department shall then hold an ~~informal hearing in the vicinity of~~
5 ~~the proposed mining~~ a mediation within sixty (60) days after the
6 close of the deadline to file protests. The mediator shall be paid
7 for by the applicant and be consented to by all parties, if not
8 provided by the Department. The mediator shall advise the
9 Department after the mediation as to whether the parties were able
10 to resolve some or all their concerns, in which case the resolutions
11 shall be incorporated into the permit as conditions, or whether the
12 parties were not able to resolve their concerns. If the parties
13 were not able to resolve all their concerns, the matter shall
14 proceed to formal hearing. The individual serving as mediator shall
15 not serve as the hearing examiner at the formal hearing.

16 5. Upon completion of findings after the hearing, the
17 Department shall determine whether to issue or deny the permit, and
18 shall notify all parties of its decision.

19 6. Any decision regarding the issuance of a permit under this
20 section shall be appealable when entered, as provided in the
21 Administrative Procedures Act.

22 I. Each application for a new operation shall contain, where
23 applicable, a list of all other licenses and permits needed by the
24

1 applicant to conduct the proposed mining operation. This list shall
2 identify each license and permit by:

- 3 1. Type of permit or license;

10 ~~An existing operation which does not have on file a list of the~~
11 ~~applicable licenses or permits with the Department on the date of~~
12 ~~enactment of this act shall not be out of compliance with the~~
13 ~~provisions of this section.~~ Any renewal of an existing permit or
14 expansion or amendment to an existing operation upon time of
15 application shall submit a copy of all approved licenses and permits
16 issued by other agencies or jurisdictions.

17 Identifications of all permits and licenses shall include local
18 government agencies with jurisdiction over or an interest in the
19 area of the proposed mining operation including, but not limited to,
20 planning agencies, water and sewer authorities; and all state and
21 federal government agencies with authority to issue permits and
22 licenses applicable to the proposed mining operation, including all
23 state environmental agencies, U.S. Army Corps of Engineers, U.S.

1 Department of Agriculture Natural Resources Conservation Service
2 district office, and federal fish and wildlife agencies.

3 J. An operator desiring to have such operator's permit amended
4 to cover additional land may file an amended application with the
5 Department. Upon receipt of the amended application, and such
6 additional bond as may be required under the provisions of the
7 Mining Lands Reclamation Act, the Department shall issue an
8 amendment to the original permit covering the additional land
9 described in the amended application, without the payment of any
10 additional fee.

11 K. An operator may withdraw any land covered by a permit,
12 deleting affected land therefrom, by notifying the Department, in
13 which case the penalty of the bond or security filed by such
14 operator pursuant to the provisions of the Mining Lands Reclamation
15 Act shall be reduced proportionately.

16 L. Permits issued to an operator may be transferable to another
17 operator, provided the new operator can demonstrate to the
18 Department, prior to the transfer of ownership, that conditions and
19 obligations required for the permit will be met and the new operator
20 has submitted a performance bond or other guarantee, or has obtained
21 the bond coverage of the original permittee.

22 M. The perimeter of the permit area shall be clearly marked by
23 durable and recognizable markers or by other means approved by the
24 Department.

1 N. The Department shall determine the blasting distance to
2 transmission lines by rule.

3 O. 1. If any mining operations where blasting is required
4 occur within the limits of a municipality with a population in
5 excess of three hundred thousand (300,000) according to the latest
6 Federal Decennial Census or within the limits of a municipality
7 within a county with a population in excess of three hundred
8 thousand (300,000) according to the latest Federal Decennial Census,
9 the application for a permit pursuant to subsections C and D of this
10 section shall be accompanied by proof that the operator is in full
11 compliance with all applicable regulations of the municipality.
12 Certified copies of any required municipal permits and any other
13 required written municipal approvals shall be attached to the
14 application when submitted to the Department. No mining permit
15 shall be issued by the Department unless the applicant first
16 complies with the requirements of this subsection. A municipality
17 is not required to reconsider requests denied by the municipality
18 related to the same site unless the municipality determines there
19 has been a material change in the application.

20 2. The provisions of paragraph 1 of this subsection shall not
21 apply to existing permitted operations, revisions or amendments
22 thereto, or any application on file with the Department prior to May
23 25, 2005. In addition, the provisions of paragraph 1 of this
24 subsection shall not apply to any future operation on property

1 directly adjacent to property on which a permitted operation is
2 located, provided that the operation is permitted and the adjacent
3 property is owned or leased by the operator on ~~the effective date of~~
4 ~~this act~~ May 25, 2005. For purposes of this subsection, properties
5 separated by a public road shall be considered to be adjacent.

6 P. Within a reasonable time, as established by the Department,
7 written comments or objections on permit or bond release
8 applications may be submitted to the Department by public entities
9 including but not limited to the local soil conservation district,
10 with respect to the effects of the proposed mining operations on the
11 environment.

12 Q. Any person having an interest in or who is or may be
13 adversely affected by the decision on a permit or bond release
14 application, or any federal, state or local agency, shall have the
15 right to request in writing that the Department hold ~~an informal~~
16 ~~conference~~ a formal hearing on the application. The Department
17 shall hold the ~~informal conference~~ hearing within a reasonable time
18 following the receipt of the written request at a location in the
19 vicinity of the proposed or active surface mining or reclamation
20 operation.

21 SECTION 29. AMENDATORY 45 O.S. 2021, Section 725, is
22 amended to read as follows:
23
24
25

1 Section 725. A. All affected land other than lands affected by
2 coal mining operations shall be reclaimed as provided in this
3 section.

4 B. The operator shall determine which parts of the affected
5 land shall be reclaimed for forest, pasture, crop, horticultural,
6 homesite, recreational, industrial or other use including food,
7 shelter and ground cover for wildlife.

8 C. All ridges and peaks of overburden created by surface mining
9 shall be graded to a rolling topography traversable by machines or
10 equipment customarily used in connection with the use to be made of
11 the land after reclamation, but such slopes need not be reduced to
12 less than the original grade of the area prior to mining, and the
13 slope of the ridge of overburden resulting from a box cut need not
14 be reduced to less than twenty-five degrees (25°) from horizontal.
15 Surface mining operations conducted in the flood plains of streams
16 and rivers and subject to periodic flooding shall be exempt from the
17 grading requirements of this section.

18 D. The operator may construct earth dams to form lakes in pits
19 resulting from surface mining operations, provided that the
20 formation of lakes shall not interfere with other mining operations
21 or damage property of others.

22 E. The operator shall cover the exposed face of a mineral seam,
23 where significant concentrations of acid-forming materials are
24

1 present, to a depth of not less than three (3) feet with earth that
2 will support plant life or with a permanent water impoundment.

3 F. The operator shall grade down the banks of any pits or
4 depressions created by the removal of sand or gravel by surface
5 mining to a degree of slope determined by the Department of
6 Environmental Quality, which shall give due consideration to the
7 natural topography of the land affected and adjacent lands, the
8 composition of such banks and the most beneficial use of the pits
9 and depressions comprising the affected land after reclamation. If
10 the pits or depressions are deeper than ten (10) feet, the operator
11 may elect to bench the highwall, provided that such benches are not
12 in excess of ten (10) feet in height.

13 G. All affected land except that which is to be covered with
14 water or used for homesites or industrial purposes shall be
15 revegetated by the planting of seeds, plants, trees, shrubs or other
16 plantings appropriate to the use to be made of the land as
17 determined by the operator. No planting of any kind shall be
18 required on any affected land so long as the chemical and physical
19 characteristics of the soil of such affected land are toxic,
20 deficient in plant nutrients or composed of sand, gravel, shale or
21 stone to such an extent as to seriously inhibit plant growth. The
22 Department may prescribe by rules and regulations the required
23 density of such plantings, and may make replanting requirements.

1 H. Except where prevented by weather conditions, all grading
2 shall be completed within one (1) year after mining of the affected
3 land has been completed. Initial seeding or planting shall be made
4 at the first appropriate time following completion of grading. If
5 the operator is unable to acquire sufficient planting stock of
6 desired species from state nurseries, or acquire such species
7 elsewhere at comparable prices the Department shall grant the
8 operator an extension of time until planting stock is available to
9 plant such land as originally planned.

10 I. In any noncoal mining operation where the type and amount of
11 material removed precludes the filling of the quarry, the Department
12 ~~of Mines~~ shall prescribe necessary measures for the protection of
13 the public and animal life.

14 SECTION 30. AMENDATORY 45 O.S. 2021, Section 727, is
15 amended to read as follows:

16 Section 727. The Department of Environmental Quality, or its
17 accredited representatives, may enter upon the lands of the operator
18 at all reasonable times, for the purpose of inspection, to determine
19 whether the provisions of this act have been complied with.

20 SECTION 31. AMENDATORY 45 O.S. 2021, Section 728, is
21 amended to read as follows:

22 Section 728. A. Any bond required to be filed with the
23 Department of Environmental Quality by the operator shall be in such
24 form as the Division Director of the Division of Mines within the

1 Department prescribes, payable to the State of Oklahoma, conditioned
2 that the operator shall faithfully perform all requirements of the
3 Mining Lands Reclamation Act and comply with all rules of the
4 Department made in accordance with the provisions of the Mining
5 Lands Reclamation Act. Such bond shall be signed by the operator as
6 principal, and by a good and sufficient corporate surety, licensed
7 to do business in the state, as surety.

8 B. The penal sum of such bond shall be determined by the
9 Department and shall depend on the performance requirements of the
10 approved permit. The minimum bond shall be Two Thousand Dollars
11 (\$2,000.00).

12 In determining the amount of the bond, the Department shall take
13 into consideration the character and nature of the overburden, the
14 future suitable use of the land involved and the cost of reclamation
15 to be required.

16 C. A bond shall not be cancelable by the surety except after
17 not less than ninety (90) days' prior written notice to the
18 Department. Bonds may be continued in effect from year to year, and
19 a new bond need not be provided for each permit application. A
20 single bond may cover all of the operator's mining operations in the
21 state. The penalty of the bond or amount of cash and securities, as
22 provided in subsection E of this section, shall be increased or
23 reduced from time to time as provided in the Mining Lands
24 Reclamation Act.

1 D. If the license to do business in the state of any surety
2 upon a bond filed with the Department pursuant to the Mining Lands
3 Reclamation Act shall be suspended or revoked, the operator, within
4 thirty (30) days after receiving notice from the Department, shall
5 substitute for such surety a good and sufficient corporate surety
6 licensed to do business in the state. Upon failure of the operator
7 to make substitution of surety as required, the Department shall
8 have the right to suspend the permit of the operator to conduct
9 operations upon the land described in such permit until such
10 substitution has been made.

11 E. In lieu of such bond, the operator may deposit cash
12 government securities, Certificates of Deposit or an irrevocable
13 letter of credit with the Department in an amount equal to that of
14 the required bond on conditions as prescribed by the Department. In
15 the discretion of the Department surety bond requirements may also
16 be fulfilled by using existing reclaimed areas, in excess of
17 cumulative permit or mined acres, that have been completed under the
18 jurisdiction of the Mining Lands Reclamation Act and approved by the
19 Department.

20 F. Such bond or security shall remain in effect until the mined
21 acres have been reclaimed, approved and released by the Department.
22 If the Department determines that grading has been satisfactorily
23 completed pursuant to the Mining Lands Reclamation Act, the
24 Department may release up to eighty percent (80%) of the penal sum

1 of the bond filed for each acre of land graded. The remaining
2 portion of the bond shall continue in effect until the completion of
3 the requirements pursuant to Section 725 of this title.

4 SECTION 32. AMENDATORY 45 O.S. 2021, Section 729, is
5 amended to read as follows:

6 Section 729. The Department of ~~Mines~~ Environmental Quality
7 shall notify the operator and the surety in writing of any claimed
8 violation of the provisions of the Mining Lands Reclamation Act or
9 the rules of the Department. If the alleged violation is discovered
10 as a result of a citizen complaint and the person claiming the
11 violation states in writing the desire that the source of the
12 complaint be kept confidential, the Department shall maintain such
13 information in confidence. If the operator denies the alleged
14 violation, the Department shall hold a hearing on said charges.
15 Said hearing shall be held not less than thirty (30) days from the
16 notice of hearing.

17 At such hearing the operator shall have the right to present
18 evidence in opposition to the claimed violation.

19 If upon such hearing the Department shall determine that a
20 violation has occurred, the Department shall make detailed findings
21 of fact and conclusions of law. The surety, if applicable, may
22 perform for the operator.

23 If the operator or surety, if applicable, fails to perform the
24 corrective work required by the Department or fails to properly
25

1 perform said work, the Department may initiate permit revocation
2 and/or bond forfeiture proceedings. After successful collection of
3 the security required by Section 728 of this title, the Department
4 shall contract for the work to be done consistent with all state
5 requirements. The Department shall not issue any permits to an
6 operator who has failed to perform such corrective work, or has
7 defaulted with respect to the bond or other security required by
8 Section 728 of this title, until such obligations are met by the
9 operator or his surety or agent, as determined by the Department.

10 If the Department determines that an entity or individual has
11 mined without a permit in violation of Section 724 of this title,
12 the Department shall assess a fine of up to Ten Thousand Dollars
13 (\$10,000.00) against the entity, individuals, or agents of said
14 entity. Any agent is jointly and severally liable with its
15 principal for such violation and any resulting fines.

16 The Department may pursue civil action for relief, including a
17 permanent or temporary injunction, restraining order, or any other
18 appropriate order in the district court for the district in which
19 the illegal mining operation is located, in which the entity,
20 individuals, or agents of said entity, have their principal offices,
21 or in Oklahoma County, to enforce any Department action against the
22 entity, individual, or agents. Further, the Department shall be
23 entitled to recover penalties or fines assessed for mining without a
24 permit from the entity, individuals or agents conducting said mining

1 in violation of this title. The Department shall also be entitled
2 to reasonable attorneys fees incurred in enforcing this provision.
3 All monies collected pursuant to this section shall be deposited in
4 the Department of ~~Mines~~ Environmental Quality Revolving Fund.

5 In order to fully inform affected surface owners who have filed
6 a complaint of any alleged violations affecting the surface estate
7 by an operator, the Department shall:

8 1. Provide by mail to the affected surface owners who have
9 filed a complaint, a copy of any alleged violations affecting the
10 surface estate issued to the operator within five (5) days after
11 such violation is cited;

12 2. Notify the surface owners who have filed a complaint of any
13 hearings in connection to alleged violations affecting the surface
14 estate in the same manner and at the same time as the operator; and

15 3. Provide surface owners who have filed a complaint with
16 complete information on the disposition of all violations affecting
17 the surface estate cited at the same time the operator is notified.

18 SECTION 33. AMENDATORY 45 O.S. 2021, Section 731, is
19 amended to read as follows:

20 Section 731. The operator shall submit to the Department of
21 Environmental Quality, no later than September 1 following the end
22 of each permit year, a map in a form approved by the Department
23 showing the location of the pit or pits by section, township, range
24 and county, with such other description as will identify the land

1 which the operator has affected by mining during such permit year
2 and has completed mining operations thereon, with a legend upon such
3 map showing the number of acres of affected land. Such map shall
4 also show in acres the extent of the reclamation accomplished on the
5 affected land, including grading and revegetation efforts, as of the
6 end of the permit year, and shall show by appropriate designation
7 any deviation from the plan of reclamation filed under subsection
8 (c) of Section 724 of this title and the reasons therefor.

9 Whenever an operator shall have completed all requirements under
10 the provisions of this act as to any affected land, he shall notify
11 the Department thereof. If the Department determines that the
12 operator has completed reclamation requirements and achieved results
13 appropriate to the use for which the area was reclaimed, the
14 Department shall release the operator from further obligations
15 regarding such affected land and the penalty of the bond shall be
16 reduced proportionately.

17 SECTION 34. AMENDATORY 45 O.S. 2021, Section 732, is
18 amended to read as follows:

19 Section 732. In addition to the duties and powers conferred on
20 the Department of Environmental Quality in other provisions of this
21 act, the Department shall have authority and power to:

7 or appropriate to insure compliance with this act ~~;~~i

8 ~~(e)~~ 5. Collect and disseminate information relating to
9 reclamation of affected lands ~~;~~i and

10 ~~(f)~~ 6. Request the assistance of any federal or state agency
11 for technical advice or any other type of assistance deemed
12 necessary to carry out the purposes of this act.

13 SECTION 35. AMENDATORY 45 O.S. 2021, Section 733, is
14 amended to read as follows:

15 Section 733. At the request of the Department of Environmental
16 Quality, the Attorney General shall provide such legal assistance as
17 may be needed in interpreting, enforcing and carrying out the
18 provisions of this act including but not limited to institution of
19 and prosecuting legal actions and proceedings for injunctive relief
20 and this improvement shall include the provisions of Section ~~17~~

8 designated as the agency to make safety inspections in sand, sand
9 and gravel, and in quarrying operations. Any person required by
10 this act to have a permit who engages in mining without a valid
11 permit therefor issued pursuant to this act is guilty of a
12 misdemeanor, and on conviction thereof shall be fined not less than
13 Fifty Dollars (\$50.00) nor more than One Thousand Dollars
14 (\$1,000.00). Each day of operation without the permit required by

22 amended to read as follows:

23 Section 742.1. This act shall be known and may be cited as the
24 "Coal Reclamation Act of 1979".

1 It is the intent of the Oklahoma Legislature that the Coal
2 Reclamation Act of 1978, Sections ~~742~~ 742.1 et seq. of ~~Title 45 of~~
3 ~~the Oklahoma Statutes~~ this title, and this Coal Reclamation Act of
4 1979, be read together as the law regulating the reclamation of
5 lands affected by surface coal mining operations and the surface
6 effects of underground coal mining, to bring Oklahoma into
7 compliance with Public Law 95-87, the "Surface Mining Control and
8 Reclamation Act of 1977".

9 The provisions of the Mining Lands Reclamation Act, Sections 721
10 through ~~728~~ 738 of ~~Title 45 of the Oklahoma Statutes~~ this title,
11 shall not apply to surface coal mining operations or the surface
12 effects of underground coal mining operations.

13 The Oklahoma Legislature finds and declares that coal mining
14 operations presently contribute significantly to the nation's energy
15 requirements, that Oklahoma's coal production is part of those
16 energy requirements, and that the cooperative effort established by
17 this act is necessary to prevent or mitigate adverse environmental
18 effects of all surface mining operations.

19 It is the purpose of this act to protect the rights of surface
20 owners and the environment, and to require reclamation of lands
21 affected by surface and underground coal mining in a manner
22 compatible with the social, environmental and aesthetic needs of
23 this state. If reclamation is not feasible, surface mining
24 operations should not be conducted. It is the intent of the

1 Legislature ~~to insure the existence of an expanding and economically~~
2 ~~healthy coal mining industry~~ and that there be public participation
3 in the development of rules and regulations appropriate to the State
4 of Oklahoma and that the Department of ~~Mines~~ Environmental Quality

24 to this act any operator who violates any permit condition or who
25

1 violates any other provision of this act may be assessed a civil
2 penalty by the Department of Environmental Quality except that if
3 such violation leads to the issuance of a cessation order under this
4 act, the civil penalty shall be assessed. Such penalty shall not
5 exceed Five Thousand Dollars (\$5,000.00) for each violation. Each
6 day of continuing violation may be deemed a separate violation for
7 purposes of penalty assessments. In determining the amount of the
8 penalty, consideration shall be given to the operator's history of
9 previous violations at the particular surface coal mining operation;
10 the seriousness of the violation, including any irreparable harm to
11 the environment and any hazard to the health or safety of the
12 public; whether the permittee was negligent; and the demonstrated
13 good faith of the permittee charged in attempting to achieve rapid
14 compliance after notification of the violation.

15 B. A civil penalty shall be assessed by the Department only
16 after the person charged with a violation described under subsection
17 A of this section has been given an opportunity for a public
18 hearing. Where such a public hearing has been held, the ~~Chief Mine~~
19 ~~Inspector~~ Division Director of the Division of Mines within the
20 Department shall make findings of fact, and he or she shall issue a
21 written decision as to the occurrence of the violation and the
22 amount of the penalty which is warranted, incorporating, when
23 appropriate, an order therein requiring that the penalty be paid.

3 charged with such a violation fails to avail himself of the
4 opportunity for a public hearing, a civil penalty shall be assessed
5 by the ~~Chief Mine Inspector~~ Division Director after the ~~Chief Mine~~
6 ~~Inspector~~ Division Director has determined that a violation did
7 occur, and the amount of the penalty which is warranted, and has
8 issued an order requiring that the penalty be paid.

9 C. Upon the issuance of a notice or order charging that a
10 violation of this act has occurred, the Department shall inform the
11 operator within thirty (30) days of the proposed amount of said
12 penalty. The person charged with the penalty shall then have thirty
13 (30) days to pay the proposed penalty in full or, if the person
14 wishes to contest either the amount of the penalty or the fact of
15 the violation, forward the proposed amount to the Department for
16 placement in an escrow account. If through administrative or
17 judicial review of the proposed penalty, it is determined that no
18 violation occurred, or that the amount of the penalty should be
19 reduced, the Department shall within thirty (30) days remit the
20 appropriate amount to the person, with interest at the rate of six
21 percent (6%), or at the prevailing United States Department of the
22 Treasury rate, whichever is greater. Failure to forward the money
23 to the Department within thirty (30) days shall result in a waiver
24

1 of all legal rights to contest the violation or the amount of the
2 penalty.

3 D. Civil penalties owed under this act may be recovered in a
4 civil action brought by the Attorney General at the request of the
5 ~~Chief Mine Inspector~~ Department of Environmental Quality in any
6 appropriate district court.

17 permit issued pursuant to this act or fails or refuses to comply
18 with any order issued under this act, or any order incorporated in a
19 final decision issued by the ~~Chief Mine Inspector~~ Department of
20 Environmental Quality under this act except an order incorporated in
21 a decision issued under subsection B of this section, any director,
22 officer or agent of such corporation who willfully and knowingly
23 authorized, ordered or carried out such violation, failure or
24 refusal shall be subject to the same civil penalties, fines and

19 expedited hearing, as provided by Section ~~53~~ 786 of this ~~act~~ title,
20 which ordered the suspension of the abatement requirements of the
21 citation because it was determined that the operator will suffer
22 irreparable loss or damage from the application of the abatement
23 requirements; or

1 2. The entry of an order by a court in any review proceedings
2 initiated by the operator in which the court orders the suspension
3 of the abatement requirements.

14 has reason to believe that any person is in violation of any
15 requirement of this act or any permit condition required by this
16 act, the Department shall immediately order inspection of the
17 surface coal mining operation at which the alleged violation is
18 occurring unless the information available to the Department is a
19 result of a previous inspection of such surface coal mining
20 operation. ~~When the inspection results from information provided to~~

8 which the violation occurred.

9 The Department may request the Attorney General to institute a
10 civil action for relief, including a permanent or temporary
11 injunction, restraining order or any other appropriate order in the
12 district court for the district in which the surface coal mining and

8 SECTION 77. AMENDATORY 82 O.S. 2021, Section 1020.2, is
9 amended to read as follows:

10 Section 1020.2. A. It is hereby declared to be the public
11 policy of this state, in the interest of the agricultural stability,
12 domestic, municipal, industrial and other beneficial uses, general
13 economy, health and welfare of the state and its citizens, to
14 utilize the ground water resources of the state, and for that
15 purpose to provide reasonable regulations for the allocation for
16 reasonable use based on hydrologic surveys of fresh ground water
17 basins or subbasins to determine a restriction on the production,
18 based upon the acres overlying the ground water basin or subbasin.

19 B. The provisions of Section 1020.1 et seq. of this title shall
20 not apply to the taking, using or disposal of salt water associated
21 with the exploration, production or recovery of oil and gas. The
22 provisions of this act shall not apply to the taking, using or
23 disposal of water trapped in producing mines outside of a sensitive
24 sole source groundwater basin or subbasin.

1 C. Except as provided for in subsection E of this section, the
2 provisions of this act shall not apply to the taking, using or
3 disposal of water trapped in producing mines:

4 1. That overlie a sensitive sole source groundwater basin or
5 subbasin and ~~have been~~ were permitted by the Oklahoma Department of
6 Mines as of August 1, 2011;

7 2. That overlie a sensitive sole source groundwater basin or
8 subbasin for which an initial application for a permit shall have
9 been filed with the Oklahoma Department of Mines as of August 1,
10 2011; or

11 3. That overlie a sensitive sole source groundwater basin or
12 subbasin and for which a permit revision is approved by the ~~Oklahoma~~
13 Department of ~~Mines~~ Environmental Quality.

14 Provided that the use of mine pit water, pursuant to a site-
15 specific water management and conservation plan prepared in
16 consultation with the Oklahoma Water Resources Board, by mines that
17 are exempted from this act by the terms of this subsection and in
18 furtherance of mine operations and associated manufacturing and
19 commercial activities on the mine site, shall be considered as
20 permitted beneficial uses for all purposes under the laws of the
21 state.

22 D. 1. Except with respect to the mines exempted from the terms
23 of this act under subsections B and C of this section, the Oklahoma
24 Water Resources Board, in coordination with the Oklahoma Department

1 of ~~Mines~~ Environmental Quality, shall promulgate rules for the
2 taking, using or disposal of water collecting in producing mine pits
3 and emanating from a sensitive sole source groundwater basin or
4 subbasin.

5 2. The rules promulgated by the Oklahoma Water Resources Board
6 shall require, subject to a de minimis exemption to be promulgated
7 therein, the development by the mine operator of provisions relating
8 to the augmentation (a beneficial use) of stream flow or
9 groundwater, and of site-specific water management and conservation
10 plans, which plans shall establish threshold hydrologic monitoring,
11 management and mitigation requirements that are based on relevant
12 hydrologic surveys and investigations of the sensitive sole source
13 groundwater basin or subbasin. Such plans submitted to the Oklahoma
14 Water Resources Board shall be subject to the provisions of the
15 Oklahoma Open Records Act.

16 3. The rules promulgated by the Oklahoma Water Resources Board
17 shall contain provisions relating to augmentation of stream flow or
18 groundwater, or both, to offset consumptive use of groundwater
19 collecting in the producing mine pit that emanates from a sensitive
20 sole source groundwater basin or subbasin in amounts greater than
21 the equal proportionate share of the maximum annual yield of the
22 groundwater basin or subbasin established by the Oklahoma Water
23 Resources Board that may be allocated to the owner or operator of
24

1 the producing mine based on groundwater rights owned or leased by
2 the owner or operator.

3 E. 1. By no later than January 1, 2013, the operator of a mine
4 that is exempted from this act by the provisions of subsection C of
5 this section shall adopt and implement a plan to monitor and report
6 to the Board the accumulation and disposition of pit water during
7 the previous calendar year. The operator shall also file with the
8 Board interim quarterly reports containing information about the
9 accumulation and disposition of pit water during the previous
10 quarter. The first interim quarterly report for calendar year 2013
11 shall be sent to the Board by June 30, 2013, and the annual report
12 for the calendar year 2013 shall be sent to the Board by March 31,
13 2014. Thereafter, the annual report for each calendar year shall be
14 sent to the Board by March 31st of the following year. The
15 monitoring plan will provide for the measurement or reasonable
16 estimation of groundwater and surface water volumes, separately
17 stated, entering the pit, of the water diverted from the pit, of the
18 disposition of the water from the pit, and of the consumptive use,
19 as defined in this section, of the mine pit water by the mine
20 operator. The reports received by the Board will be subject to the
21 provisions of the Oklahoma Open Records Act. If an operator of a
22 mine that is exempted from this act by the provisions of subsection
23 C of this section fails to timely submit an interim quarterly report
24 or annual report, the exemption of subsection C of this section

1 shall no longer apply to the mine and the rules promulgated pursuant
2 to subsection D of this section shall become applicable, provided
3 that such rules shall contain provisions to allow the operator to
4 show cause why the exemption contained in subsection C of this
5 section should continue to apply.

6 2. If, at any time after March 31, 2015, the amount of
7 groundwater from the pit (plus amounts of groundwater from permitted
8 wells, if any) consumptively used in the preceding twelve (12)
9 months by the mine operator at a mine described in paragraph 1 of
10 this subsection exceeds the annual amount that is equivalent to the
11 equal proportionate share of the maximum annual yield of the
12 groundwater basin or subbasin that could be allocated to the owner
13 or operator of the producing mine based on groundwater rights owned
14 or leased by the owner or operator, then the exemption of subsection
15 C of this section shall no longer apply and the provisions of
16 subsection D of this section shall become applicable to the mine
17 unless the mine operator submits a site-specific water management
18 and conservation plan demonstrating, to the satisfaction of the
19 Board, that such consumptive use of groundwater in amounts greater
20 than the equivalent equal proportionate share either is:

- 21 a. offset by augmentation of stream water flow or
22 augmentation of groundwater by recharge, or

1 b. not likely to reduce the natural flow of springs or
2 streams emanating from a sensitive sole source
3 groundwater basin or subbasin, or

4 c. satisfied by the owner or operator acquiring
5 sufficient groundwater rights within ninety (90) days
6 of the reported exceedance.

7 The plan submitted to the Board will be subject to the provisions of
8 the Oklahoma Open Records Act. If the exemption of subsection C of
9 this section no longer applies, the rules promulgated by the
10 Oklahoma Water Resources Board pursuant to subsection D of this
11 section shall provide a period of at least ninety (90) days to come
12 into compliance.

13 3. If an operator of a mine that is exempt pursuant to
14 subsection C of this section operates in compliance with a site-
15 specific water management and conservation plan that complies with
16 rules promulgated by the Board pursuant to subsection D of this
17 section, the Board cannot otherwise require the operator of such
18 mine to take an action or refrain from taking an action that would
19 effectively prohibit any mining operation or practice that is
20 otherwise allowed by the Oklahoma Department of ~~Mines~~ Environmental
21 Quality.

22 F. For purposes of this section, "consumptive use" or
23 "consumptively used" means diversion of water from a mine pit that
24 is not returned to the groundwater basin or subbasin, or to a mine

1 pit or holding basin, or to a definite stream, or to the land
2 surface from which surface runoff flows into a mine pit. The term
3 "consumptive use" includes the estimated moisture content driven off
4 or carried away with the mined material transported off the mining
5 site, plus the amount of evaporation from the mine pit that exceeds
6 the amount of direct precipitation and surface runoff into the mine
7 pit, plus any amounts for other proposed beneficial uses off the
8 mining site.

9 G. Augmentation of stream flow or groundwater, pursuant to a
10 site-specific water management and conservation plan prepared in
11 consultation with the Oklahoma Water Resources Board, shall be
12 considered a beneficial use and not waste, and shall not count
13 against permitted surface water or groundwater usage, provided that
14 taking, using or disposal of water from a producing mine for stream
15 augmentation pursuant to a site-specific water management and
16 conservation plan prepared in consultation with the Oklahoma Water
17 Resources Board, may be claimed in annual water use reports as a
18 beneficial use for purposes of the maintenance of the right to use
19 surface water under any permit applicable to such mine. The mine
20 pit shall be considered a diversion point authorized by the surface
21 water use permit issued to the mine operator whenever there is
22 consumptive use of surface water or the surface water is used for
23 stream augmentation.

1 SECTION 78. AMENDATORY 82 O.S. 2021, Section 1020.9C, is
2 amended to read as follows:

3 Section 1020.9C. A. For the purposes of this section, a
4 "subject mine" shall mean a mine, as defined in paragraph 2 of
5 Section 723 of Title 45 of the Oklahoma Statutes, that overlies a
6 sensitive sole source groundwater basin or subbasin, exclusive of
7 any mine that meets at least one of the following conditions:

8 1. As of November 1, 2019, was engaged in the permitted
9 extraction of minerals from natural deposits; or

10 2. Satisfies the criteria of paragraph 1 or 2 of subsection C
11 of Section 1020.2 of ~~Title 82 of the Oklahoma Statutes~~ this title;
12 or

13 3. Is not to be permitted to operate for a period of more than
14 five (5) years, with no extensions or renewals; or

15 4. The operation of which will not result in more than five (5)
16 acre-feet per year of groundwater emanating from a sensitive sole
17 source groundwater basin or subbasin to infiltrate its pit, as that
18 term is defined in paragraph 12 of Section 723 of Title 45 of the
19 Oklahoma Statutes.

20 B. Due to the inadequacy of existing technical resources,
21 analytic tools and regulatory systems for purposes of the effective
22 implementation of statutes relating to the operation of mines that
23 may affect sensitive sole source groundwater basins or subbasins,
24

1 the Legislature hereby declares and establishes a moratorium on the
2 following actions:

3 1. The Oklahoma Water Resources Board shall not issue any
4 permit or other administrative authorization for the appropriation,
5 diversion, withdrawal or removal of water from or for the
6 dewatering, in part or in full, of a pit, as defined in paragraph 12
7 of Section 723 of Title 45 of the Oklahoma Statutes, of a subject
8 mine; and

9 2. The Board shall not issue, allocate or recognize, pursuant
10 to subsection D of Section 1020.2 of ~~Title 82 of the Oklahoma~~
11 ~~Statutes~~ this title, Section 785:30-15-5 of the Oklahoma
12 Administrative Code or any other provision of law, any offset to the
13 consumptive use of water of a subject mine where such offset is
14 based on a claimed augmentation of stream flow or groundwater.

15 C. The moratorium shall be in effect until such time as the
16 Board, working in coordination with the Department of Environmental
17 Quality, ~~the Department of Mines~~, and East Central University and in
18 cooperation with federal and tribal governmental agencies with
19 interests in a subject mine that overlies a sensitive sole source
20 groundwater basin or subbasin:

21 1. Completes the Enhanced Monitoring and Evaluation of
22 Hydrologic Trends for the Eastern Arbuckle-Simpson Aquifer, South-
23 Central Oklahoma and, based thereon, develops modeling and other
24 technical tools capable of accurately measuring and projecting, as a

1 matter both of incremental and cumulative effect, whether a proposed
2 withdrawal of groundwater from a sensitive sole source groundwater
3 basin or subbasin would degrade or interfere with springs and
4 streams emanating therefrom;

5 2. Promulgates final rules to integrate the use of such studies
6 and tools to administrative implementation of:

7 a. waste, degradation and interference analyses required
8 by subparagraphs c and d of paragraph 1 and
9 subparagraphs c and d of paragraph 2 of subsection A
10 of Section 1020.9 of ~~Title 82 of the Oklahoma Statutes~~
11 this title,

12 b. uniform minimum standards and requirements for the
13 development of, and annual reporting regarding
14 compliance with, site-specific water management and
15 conservation plans pursuant to Section 1020.2 of ~~Title~~
16 ~~82 of the Oklahoma Statutes~~ this title, with
17 particular regard to methodologies for calculating
18 amounts claimed in consumptive use of water and any
19 claimed augmentation of stream flow or groundwater,
20 and

21 c. consultation, review and approval of such site-
22 specific water management and conservation plans, with
23 specific provisions for making such consultations,
24

1 reviews and approvals subject to Article 2 of the
2 Administrative Procedures Act; and

3 3. Promulgates final rules to provide for effective interagency
4 consultation and coordination of activities among the Board,~~the~~
5 ~~Department of Mines~~ and the Department of Environmental Quality on
6 all administrative matters relating to the operation of mines at
7 locations that overlie a sensitive sole source groundwater basin or
8 subbasin.

9 D. The Board is hereby authorized and instructed to promulgate
10 rules to implement the provisions of this section.

11 E. The Board is hereby authorized to cooperate with federal,
12 tribal and any other agency in this state in performing its
13 responsibilities under this section.
