

1 STATE OF OKLAHOMA

2 1st Session of the 60th Legislature (2025)

3 POLICY COMMITTEE
4 RECOMMENDATION

5 FOR

6 HOUSE BILL NO. 1808

7 By: Newton

8 POLICY COMMITTEE RECOMMENDATION

9 An Act relating to health insurance; providing
10 definitions; providing enforcement by the Attorney
11 General; promulgating rules; providing for step-
12 therapy protocols for prescription drugs; providing
13 for prior authorization requests; providing for
14 legislative intent; providing standards for fair
15 contracts; providing for codification; and providing
16 an effective date.

17 BE IT ENACTED BY THE PEOPLE OF THE STATE OF OKLAHOMA:

18 SECTION 1. NEW LAW A new section of law to be codified
19 in the Oklahoma Statutes as Section 6110 of Title 36, unless there
20 is created a duplication in numbering, reads as follows:

21 As used in this section:

22 1. "Health benefit plan" means a health benefit plan as defined
23 pursuant to Section 6060.4 of this title;

24 2. "Health care services" means services for the diagnosis,
prevention, treatment, cure, or relief of a physical, dental,

1 behavioral, or mental health condition or substance use disorder,
2 including procedures, products, devices, and medications; and

3 3. "Readily available" means that the medication is not listed
4 on a national drug shortage list, including lists maintained by the
5 United States Food and Drug Administration and by the American
6 Society of Health-System Pharmacists.

7 SECTION 2. NEW LAW A new section of law to be codified
8 in the Oklahoma Statutes as Section 6110.1 of Title 36, unless there
9 is created a duplication in numbering, reads as follows:

10 1. A health insurance or other health benefit plan offered by a
11 health insurer or by a pharmacy benefit manager on behalf of a
12 health insurer that provides coverage for prescription drugs and
13 uses step-therapy protocols shall:

14 a. not require failure, including discontinuation due to
15 lack of efficacy or effectiveness, diminished effect,
16 or an adverse event, on the same medication on more
17 than one occasion for insureds who are continuously
18 enrolled in a plan offered by the insurer or its
19 pharmacy benefit manager, and

20 b. grant an exception to its step-therapy protocols upon
21 request of an insured or the insured's treating health
22 care professional under the same time parameters as
23 set forth for prior authorization requests if any one
24 or more of the following conditions apply:

- 1 (1) the prescription drug required under the step-
2 therapy protocol is contraindicated or will
3 likely cause an adverse reaction or physical or
4 mental harm to the insured,
- 5 (2) the prescription drug required under the step-
6 therapy protocol is expected to be ineffective
7 based on the insured's known clinical history,
8 condition, and prescription drug regimen,
- 9 (3) the insured has already tried the prescription
10 drugs on the protocol, or other prescription
11 drugs in the same pharmacologic class or with the
12 same mechanism of action, which have been
13 discontinued due to lack of efficacy or
14 effectiveness, diminished effect, or an adverse
15 event, regardless of whether the insured was
16 covered at the time on a plan offered by the
17 current insurer or its pharmacy benefit manager,
- 18 (4) the insured is stable on a prescription drug
19 selected by the insured's treating health care
20 professional for the medical condition under
21 consideration, or
- 22 (5) the step-therapy protocol or a prescription drug
23 required under the protocol is not in the
24 patient's best interests because it will:

- 1 (a) pose a barrier to adherence,
- 2 (b) likely worsen a comorbid condition, or
- 3 (c) likely decrease the insured's ability to
- 4 achieve or maintain reasonable functional
- 5 ability.

6 2. Nothing in this subsection shall be construed to prohibit
7 the use of tiered co-payments for members or subscribers not subject
8 to a step-therapy protocol.

9 3. Notwithstanding any provision of paragraph 1 of this
10 subsection to the contrary, a health insurance or other health
11 benefit plan offered by an insurer or by a pharmacy benefit manager
12 on behalf of a health insurer that provides coverage for
13 prescription drugs shall not utilize a step-therapy, "fail first",
14 or other protocol that requires documented trials of a medication,
15 including a trial documented through a "MedWatch", FDA Form 3500,
16 before approving a prescription for the treatment of substance use
17 disorder.

18 SECTION 3. NEW LAW A new section of law to be codified
19 in the Oklahoma Statutes as Section 6110.2 of Title 36, unless there
20 is created a duplication in numbering, reads as follows:

21 A. 1. For urgent prior authorization requests, a health plan
22 shall approve, deny, or inform the insured or health care provider
23 if any information is missing from a prior authorization request
24

1 from an insured or a prescribing health care provider within twenty-
2 four (24) hours following receipt.

3 2. If a health plan informs an insured or a health care
4 provider that more information is necessary for the health plan to
5 make a determination on the request, the health plan shall have
6 twenty-four (24) hours to approve or deny the request upon receipt
7 of the necessary information.

8 B. For nonurgent prior authorization requests:

9 1. A health plan shall approve or deny a completed prior
10 authorization request from an insured or a prescribing health care
11 provider within two (2) business days following receipt;

12 2. A health plan shall acknowledge receipt of the prior
13 authorization request within twenty-four (24) hours following
14 receipt and shall inform the insured or health care provider at that
15 time if any information is missing that is necessary for the health
16 plan to make a determination on the request; and

17 3. If a health plan notifies an insured or a health care
18 provider that more information is necessary pursuant to paragraph 2
19 of this subsection, the health plan shall have twenty-four (24)
20 hours to approve or deny the request upon receipt of the necessary
21 information.

22 C. If a health plan does not, within the time limits set forth
23 in this section, respond to a completed prior authorization request,
24 acknowledge receipt of the request for prior authorization, or

1 request missing information, the prior authorization request shall
2 be deemed to have been granted.

3 D. Prior authorization approval for a prescribed treatment,
4 service, or course of medication shall be valid for the duration of
5 a prescribed or ordered course of treatment or one (1) year,
6 whichever is longer.

7 E. For an insured who is stable on a treatment, service, or
8 course of medication, as determined by a health care provider, that
9 was approved for coverage under a previous health plan, a health
10 plan shall not restrict coverage of that treatment, service, or
11 course of medication for at least ninety (90) days upon the
12 insured's enrollment in the new health plan.

13 F. A health insurance or other health benefit plan offered by a
14 health insurer or by a pharmacy benefit manager on behalf of a
15 health insurer shall cover, without requiring prior authorization,
16 at least one readily available asthma controller medication from
17 each class of medication and mode of administration.

18 G. Prior authorization approval for a prescribed or ordered
19 treatment, service, or course of medication shall be valid for the
20 duration of the prescribed or ordered treatment, service, or course
21 of medication or one (1) year, whichever is longer; provided,
22 however, that for a prescribed or ordered treatment, service, or
23 course of medication that continues for more than one (1) year, a
24

1 health plan shall not require renewal of the prior authorization
2 approval more frequently than once every five (5) years.

3 SECTION 4. NEW LAW A new section of law to be codified
4 in the Oklahoma Statutes as Section 6110.3 of Title 36, unless there
5 is created a duplication in numbering, reads as follows:

6 A. The Insurance Department shall adopt rules, bulletins, or
7 other guidance that prohibits carriers from imposing prior
8 authorization requirements for any generic medication or for any
9 treatment or medication, or for any category of these, that have low
10 variation across health care providers and denial rates of less than
11 ten percent (10%) across carriers.

12 B. In developing its rules, bulletins, or other guidance, the
13 Department may rely on prior authorization data submitted by the
14 health plans.

15 C. It is the intent of the Legislature that the rules,
16 bulletins, or other guidance that the Department develops pursuant
17 to this subsection should be designed to apply to frequently used
18 medications, especially those ordered by primary care providers, and
19 to achieve consistency in prior authorization exemptions across
20 health plans in order to meaningfully reduce the administrative
21 burden on health care providers.

22 SECTION 5. NEW LAW A new section of law to be codified
23 in the Oklahoma Statutes as Section 6110.4 of Title 36, unless there
24 is created a duplication in numbering, reads as follows:

1 For any violation of the provisions of this act or any rule
2 adopted pursuant thereto, the Insurance Commissioner may, upon
3 notice and hearing, subject a person or entity to a civil fine of
4 not less than One Hundred Dollars (\$100.00) nor more than One
5 Thousand Dollars (\$1,000.00) for each occurrence.

6 SECTION 6. NEW LAW A new section of law to be codified
7 in the Oklahoma Statutes as Section 6110.5 of Title 36, unless there
8 is created a duplication in numbering, reads as follows:

9 This act provides prior authorization and step-therapy protocol
10 for prescription drugs. This act shall not apply to any type of
11 medical condition procedure.

12 SECTION 7. This act shall become effective November 1, 2025.
