17 contributions they will make to the workforce.

18 B. The Legislature finds that a responsible government ensures
19 that taxpayer dollars are expended in the manner directed by the
20 Legislature and are providing a return on investment for Oklahoma's
21 future.

22 C. To protect the hard-earned dollars of taxpayers in this
23 state, the Legislature must be able to comprehensively evaluate
24 student and workforce data to make decisions and reforms where

1 necessary while safeguarding the confidential information of
2 Oklahomans.

3 SECTION 2. NEW LAW A new section of law to be codified
4 in the Oklahoma Statutes as Section 3-180 of Title 70, unless there
5 is created a duplication in numbering, reads as follows:

6 A. There is hereby created the Oklahoma Education and Workforce
7 Efficiency Data System (EDS) as a secure system for the de-
8 identification, exchange, and matching of education and workforce
9 data among approved entities. The purpose of the EDS shall be to
10 provide state agencies, legislators, and other approved users with
11 access to de-identified data on early childhood education,
12 elementary and secondary education, workforce training, and

14 increase the return on investment for taxpayer funds.

22 Quality and Accountability (OEQA), and any other agency that
23 collects critical employment or education data;

24

1 2. Be designed to allow additional agencies to integrate their
2 data in the future;

3 3. Implement identity management capabilities to create unique
4 identifiers to restrict personally identifiable information while
5 linking early childhood education, elementary and secondary
6 education, postsecondary education, and workforce data;

7 4. Enable data governance, auditing, and tracking of data edits
8 and changes by authorized users;

9 5. Support advanced analytics capabilities including, but not
10 limited to, artificial intelligence, machine learning, forecasting,
11 and data mining, as well as the use of business intelligence tools
12 such as data visualization and dashboards; and

13 6. Ensure compliance with the Family Educational Rights and
14 Privacy Act of 1974 (FERPA), the Student Data Accessibility,

2 Technical Education Act of 2006 as reauthorized by the Strengthening
3 Career and Technical Education for the 21st Century Act, the
4 Workforce Data Quality Initiative, and other workforce- and
5 education-related federal grant programs. Any data used for such
6 purposes shall be de-identified or aggregated before submission,
7 unless federal law explicitly requires otherwise; or

8 3. Collect personal data including, but not limited to, the
9 religion of an individual and his or her parent or legal guardian;
10 the political affiliation of an individual and his or her parent or
11 legal guardian; the health insurance status of an individual and his
12 or her parent or legal guardian; and medical information relating to
13 an individual and his or her parent or legal guardian.
