17 there is created a duplication in numbering, reads as follows:

18 As used in this section:

20 subscribers may utilize a three-digit number (9-1-1) for reporting  
21 an emergency to the appropriate public agency providing law  
22 enforcement, fire, medical or other emergency services, including

15 administration of the 988 Lifeline system with expectations of  
16 clinical, technical and operational performance. The Lifeline  
17 administrator is responsible for leadership and coordination of 200-  
18 plus individual state and locally funded crisis contact centers  
19 across the country. Each center is responsible for abiding by a

22 Lifeline administrator, and a center liaison;

18 program fund created under Section 3 of this act;

19 8. "Behavioral health crisis services" are intensive services  
20 that are provided to address or prevent behavioral health symptoms,  
21 situations, or events that may negatively impact an individual's  
22 ability to function within his or her current family or caregiver  
23 and living situation, school, workplace, or community. Behavioral  
24 health crisis services are for anyone, anywhere, and at any time and

1 can be provided in a variety of settings, including via text or  
2 telephone, face-to-face at an individual's home, or in the  
3 community;

4 9. "Behavioral health crisis system" is an organized set of  
5 structures, processes, and services in place to meet all types of  
6 urgent and emerging mental health and substance use needs in a  
7 defined population or community, effectively and efficiently.  
8 Essential elements of a behavioral health crisis system include 988  
9 crisis lines that accept all calls and texts, and provide support  
10 and referrals based on the needs of the individual or family member  
11 or caregiver; mobile crisis teams that respond to the location of  
12 need in the community; and crisis stabilization facilities that  
13 serve everyone who enters their doors from all referral sources.

14 Comprehensive behavioral health crisis systems:

- 15 a. address recovery needs, significant use of peers, and  
16 trauma-informed care,
- 17 b. provide "suicide safer" care,
- 18 c. ensure safety and security for staff and those in  
19 crisis, and
- 20 d. involve collaboration with law enforcement and  
21 emergency medical services.

22 10. "Behavioral health equity" is the right to access high-  
23 quality, affordable behavioral health care services and support,  
24 regardless of race, ethnicity, sexual orientation, gender identity,

1 geography, socioeconomic status, or other characteristics. This  
2 includes addressing the needs of historically underserved  
3 populations such as:

- 4 a. individuals from diverse racial and ethnic  
5 backgrounds, including Black, Latino, Indigenous,  
6 Native American, Asian American, and Pacific Islander  
7 communities,
- 8 b. persons of varying faiths and beliefs, including  
9 members of religious minorities,
- 10 c. individuals with disabilities,

12 gay individuals,
- 13 e. residents of rural or remote areas, and

15 to persistent poverty, discrimination, or inequality;

16 11. "Behavioral health urgent care" is an ambulatory setting  
17 that offers safe, voluntary, and time-limited services and supports  
18 to individuals experiencing behavioral health crisis. This setting  
19 is an alternative to the use of hospital emergency departments or  
20 more intensive crisis services;

21 12. "Community Mental Health Centers, and Certified Community  
22 Behavioral Health Clinics" are facilities as defined under Section  
23 1913(c) of the Public Health Services Act or Section 223(d) of the

2 relevant state agencies;

3 13. "Community outreach teams (COTs)" engage in outreach to  
4 communities and community members to support a variety of needs of  
5 individuals including behavioral health, physical care, housing,  
6 benefits, education, and employment. COTs do not provide on-demand  
7 crisis services. Instead, through outreach and engagement, COTs aim  
8 to promote wellness, resilience, recovery, self-advocacy,  
9 development of supports, and maintenance of community living skills.  
10 COTs can work effectively alongside mobile crisis teams to prevent  
11 crisis and provide wraparound supports to those in need. Some rural  
12 and under-resourced communities have created teams with dual roles  
13 of mobile crisis services and COTs. COTs can be especially helpful  
14 for follow-up care;

15 14. "Co-response" is a collaborative approach to behavioral  
16 health crisis developed in response to the need for local adaptation  
17 in which first responders, sometimes including law enforcement  
18 officers, are partnered with behavioral health professionals as an  
19 effective way to respond to behavioral health crises and other  
20 situations involving unmet behavioral health needs;

21 15. "Crisis stabilization services" reflect a range of models  
22 and care to support individuals through emergent and urgent  
23 behavioral health needs. Crisis stabilization services involve  
24 facility-, home-, and community-based services that provide access

1 to care and stabilization for adults and youth in crisis. Crisis  
2 stabilization services are delivered across a continuum of care that  
3 includes no barrier, low barrier, and referral-based services;

4 16. "Emotional support lines" focus on providing connection and  
5 wellness promotion. They are not hotlines; however, they are still  
6 expected to have the capacity to determine if referral to a crisis  
7 hotline or more intensive intervention is warranted. They are  
8 sometimes referred to as helplines. Emotional support lines are  
9 recognized for providing services such as active, empathetic  
10 listening, safety planning, rapport building, and crisis support and  
11 prevention planning. Prominent examples include Substance Abuse and  
12 Mental Health Services Administration National Helpline, the Alcohol  
13 and Drug Helpline, and the Alzheimer's Association 24/7 Helpline;

14 17. "Federal Communications Commission" regulates interstate  
15 and international communications by radio, television, wire,  
16 satellite, and cable in all fifty (50) states, the District of

2 benefit policy, a specified accident policy, a specified disease  
3 policy, a Medicare supplement policy, a long-term care policy,

5 policy, coverage issued as a supplement to liability insurance, a  
6 disability policy or workers' compensation;

7 19. "Law enforcement" describes a type of first-responder  
8 agency and employee responsible for enforcing laws, maintaining  
9 public order, and managing public safety;

10 20. "Lived experience" is personal knowledge about mental  
11 health, substance use, or co-occurring mental health and substance  
12 use disorders, treatment, and recovery gained through direct  
13 involvement as an individual with past or current mental health or  
14 substance use challenges;

15 21. "Mobile crisis team" means a multidisciplinary behavioral  
16 health team that includes at least one behavioral health care  
17 professional who is capable of conducting an assessment of the  
18 individual, in accordance with the professional's permitted scope of  
19 practice under state law, and other professionals or  
20 paraprofessionals with appropriate expertise in behavioral health or  
21 mental health crisis response, including nurses, social workers,  
22 peer support specialists, and others, whose members are trained in  
23 trauma-informed care, de-escalation strategies, and harm reduction;  
24 that is able to respond in a timely manner and, where appropriate,

3 services and supports as needed; that maintains relationships with  
4 relevant community partners, including medical and behavioral;

5 22. "Other behavioral health crisis hotlines" include phone,  
6 text, and chat services that are not part of the 988 Lifeline  
7 network but that also provide support to people experiencing  
8 emotional distress or to third-party callers who are concerned about  
9 another person. These hotlines typically fall into one or more of  
10 the following categories:

- 11 a. topically focused to a specific type of need or  
12 stressor,
- 13 b. focused on providing services to a specific  
14 population, including but not limited to, a geographic  
15 catchment area, and

17 types of emotional distress that are similar in scope  
18 to the 988 Lifeline but are not connected to the 988  
19 Lifeline;

20 23. "Peer-operated warmlines" provide ongoing phone, text, or  
21 chat support by an individual with lived experience. Calls are  
22 answered by trained peers who have lived experience with the type of  
23 mental health support the line is intended to provide. Peer-
