Research Analysis

The proposed policy committee substitute to HB1120 establishes new state oversight requirements for the implementation of federal election directives and the acceptance of federal election funds, and disallows the Secretary of the State Election Board and county election board secretaries from implementing any new federal election directive or guidance without prior approval from the State Legislature.

Any new federal election funds (grants or appropriations) received after the bill's effective date must be approved by the State Legislature before acceptance or use.

By January 15, 2026, and annually thereafter, the Secretary of the State Election Board must publish on the board's website:

- The balance of all federal funds from the past two years.
- A description of the source of those funds.

Fiscal Analysis

The proposed policy committee substitute to HB 1120 does not materially alter the fiscal impact statement for the original measure. Costs associated with implementation of the measure are anticipated to be absorbed within SEB's existing budgetary resources.
