**Fiscal Analysis**

In its current form, HB1378 modifies definitions used to administer the agriculture sales tax exemption and agricultural exemption permit.

The Oklahoma Tax Commission has provided the following analysis:

---

**ESTIMATED REVENUE IMPACT:**

**FY26:** Unknown decrease in state sales tax revenues.

**FY27:** Unknown decrease in state sales tax revenues.

**ANALYSIS:** The measure includes the production of timber, seedling production, and forestry management to the definition of Agricultural products for the purpose of obtaining an agricultural sales tax exemption.

The measure does not provide definitions for the terms "timber", "seedling production", or "forestry management", allowing a broad interpretation for each new term. The amount of land that is currently being used for timber production, seedling production, and forestry management is unknown, as are the number of additional agricultural permit holders that may be exempted by this measure. This results in an unknown decrease in annual state sales tax revenues.
