Research Analysis

The second floor substitute for HB 1585 allows pharmacy technician applicants who are at least 17 years old and in approved youth apprenticeship or CareerTech programs to complete Phase II training without being pharmacy employees. All pharmacy technician training programs must be annually approved by the State Board of Pharmacy and carry liability insurance on student participants.

CHANGES IN FLOOR SUBSTITUTE FROM FLOOR VERSION:

The floor substitute adds the liability insurance requirement for apprenticeship and CareerTech programs to cover students while training in pharmacies.

Fiscal Analysis

This second Floor Substitution adds language that requires the Oklahoma Department of Career and Technology Education to carry liability insurance on its students in the pharmacy tech program described in the measure. According to the Department, this will not create a fiscal impact for the agency. Therefore, there should be no fiscal impact to the state budget.
