<b>Date:</b>	<b>2/28/2025</b>
<b>Impact:</b>	<b>See Analysis Below</b>

**Research Analysis**

The committee substitute to HB 1607 requires all state agencies to report to OMES the number of contract employees within their agency. The report must include the contract employee's pay and must be made through existing payroll software.

**Fiscal Analysis**

The committee substitute to HB 1607 requires state agencies use existing software (i.e., Workday VNDLY) in reporting certain employees to the Oklahoma Office of Management and Enterprise Services (OMES). VNDLY is licensed based on a total state contracted amount. OMES has confirmed that this essentially means the cost associated with Workday VNDLY licensing is based upon the number of employees in the VNDLY system. Therefore, the licenses are expected to increase in number due to the addition of such employees. Currently, OMES is not recovering the total cost of Workday, which includes VNDLY. OMES is reporting that it does not have the information required for determining a fiscal impact is because the total number of such employees is unknown.

After further communication with OMES, it may be noted that the current rate per Workday license is \$146.50. It is currently unknown whether the rate will increase in July.
