

BILL SUMMARY
1st Session of the 60th Legislature

Bill No.:	HB1853
Version:	POLREC
Request Number:	12862
Author:	Rep. Schreiber
Date:	2/27/2025
Impact:	\$0

Research Analysis

The policy committee recommendation for HB 1853 provides that an enrollee may choose to pay for a health care service out-of-pocket from a licensed health care provider. If an enrollee negotiates a lower costs than the average allowed amount paid by the carrier to a network provider for a comparable service, and the enrollee pays out-of-pocket, the enrollee may send documentation that provides the information specified in the measure. A carrier that receives this documentation must count the full amount that the enrollee paid out-of-pocket towards their deductible, coinsurance, copayment, or other costs-sharing amount if the service is included in their health plan, they negotiated for a lower costs, and the amount doesn't exceed the total amount that a covered person is required to pay out-of-pocket. The provisions of the measure cover an enrollee who may choose to pay for a health care service out-of-pocket from a licensed health care provider.

Fiscal Analysis

The policy recommendation to HB 1853 authorizes an enrollee to pay for health care services out-of-pocket from an out-of-network licensed provider and for insurance providers to count certain payments towards their cost share.

According to officials from the Oklahoma Health Care Authority, they do not expect the HealthChoice plan to incur additional claims if the member makes a direct payment to the provider. However, they did state, an item of concern is the potential for additional administration or confusion for the health plan to receive claims from the enrollees versus the providers. The requirements of the measure do not apply to the state Medicaid program.

In its current form, HB 1853 is not anticipated to have a direct fiscal impact on the state budget or appropriations.
