

BILL SUMMARY
1st Session of the 60th Legislature

Bill No.:	Hb1862
Version:	Int
Request Number:	11704
Author:	Roberts
Date:	2/19/2025
Impact:	Please see previous summary of this measure

Research Analysis

HB 1862 creates the Oklahoma Law Enforcement Event Deconfliction Act. The measure requires law enforcement to submit information to an event deconfliction system. Event deconfliction system is defined as a system designed to perform event deconfliction and notify appropriate law enforcement personnel that a conflict may exist. The following types of events require the use of an event deconfliction system:

- The service of a search or arrest warrant;
- The planned arrest of a person immediately following an operation or action by law enforcement personnel;
- Taking delivery of contraband from an individual who is not intended to be arrested;
- Conducting an operation whereby law enforcement personnel approaches an individual at his or her residence and requests permission to search for any contraband;
- Predetermined surveillance operations, whether stationary or mobile;
- Covert activity by law enforcement personnel, or by confidential sources acting under the direction of law enforcement personnel, that could cause a response from citizens or local police who may reasonably believe a crime is in progress; or
- Any other high-risk or specialized law enforcement activities identified in state or local regulation or protocol that would benefit from event deconfliction.

Law enforcement personnel who receive an event conflict notification and fail to make a good faith effort to resolve the conflict may be subject to civil, administrative, or criminal penalties.

The Oklahoma Bureau of Narcotics and Dangerous Drugs Control is to promulgate necessary rules.
