<b>Date:</b>	<b>3/6/2025</b>
<b>Impact:</b>	<b>\$0</b>

**Research Analysis**

The committee recommendation to HB 2158 provides a definition of "common entity" related to equity interests in a factory, manufacturer, manufacturer branch, distributor, or distributor branch. The measure modifies the definition of "access fee" and requires dealer management systems to maintain commercially reasonable data security standards. The measure provides that an Authorized Integrator may not be prohibited from integrating into the dealer's dealer data system if the Integrator has satisfied or is compliant with commercially reasonable data security standards. The bill modifies reasons for which a license may be denied, revoked, or suspended and requires certain factory compliance.

**Fiscal Analysis**

The policy committee recommendation to HB 2158 does not materially alter the prior fiscal impact statement. The measure sets a legal standard of compliance for certain parties and does not mandate any action or expenditure by a state agency. Therefore, the measure is not anticipated to have a direct fiscal impact on the state budget or appropriations.
