**Research Analysis**

The proposed committee substitute for HB 2262 adds that any individual employed or contracted by a registered long-term care facility who publicly advertises, intentionally markets, or otherwise engages in promotional campaigns communicating that the facility offers memory care, Alzheimer's care, or dementia will be subject to penalties if the facility does not meet criteria for those types of care.

HB 2262 provides that a referral agency provide a representative of a person with Alzheimer's or other form of dementia who is considering placement within a unit, program, or facility, the disclosure form for each recommended facility. The facility must display in the designated area a complaint poster that states they may file a complaint with the Attorney General's Consumer Protection Unit if they were not given a copy of the disclosure form.

**Fiscal Analysis**

The proposed oversight committee substitute to HB 2262 specifies the requirements for referral agencies and dementia care facilities in relation to the disclosure of care documents within the Alzheimer's Dementia and Other Forms of Dementia Special Care Disclosure Act. Those who engage in false advertising of memory care services are subject to penalties, as provided by the Act. In its current form, this measure is not anticipated to have a direct fiscal impact on the state budget.
