Additionally, the measure requires notaries public to maintain a journal of record for all notarial acts for 10 years. Entries in the journal must contain certain information as laid out in the measure.

The SOS expects to incur a total cost of \$170,760 for software updates to the current filing system and to contract with a vendor to maintain compliance with the training requirements of the measure. Given that the SOS is a non-appropriated entity, Officials with the agency have stated that these expenses will be absorbed by the office by using existing budgetary resources. Therefore, there is no direct impact to the state budget or appropriations.
