Bill Analysis

SB 2 establishes set back requirements for wind energy facilities beginning November 1, 2025. The measure requires such facilities to be located at least 0.25 miles away from the nearest point on the outside wall of any residential dwelling and any nonparticipating property. If a notice of commencement of construction of a wind energy facility is completed and filed with the Corporation Commission prior to November 1, 2025, with a date to commence construction at the location detailed in the notice on or before November 1, 2026, the setback provisions shall not apply.
