

Bill Summary
2nd Session of the 59th Legislature

Bill No.:	SB 3
Version:	CS
Request No.:	1672
Author:	Sen. Green
Date:	03/04/2025

Bill Analysis

SB 3 prohibits land application of sludge and biosolid materials after July 1, 2027. The Department of Environmental Quality from issuing any new permit for the land application of sludge or biosolid material. The Department may renew such permits at its discretion. The measure requires any person issued a permit for such applications to submit a plan for full cessation of such actions to the Department. Such persons shall also be required to reduce the amount of biosolids applied by at least 25% no later than September 1, 2025, and by 50% no later than September 1, 2026.
