Fiscal Analysis:**

SB 2 establishes new requirements for wind facilities, prohibiting the establishment of any facility if the tower base is located within 0.25 nautical miles of a residential dwelling or any nonparticipating property.

The Corporation Commission states that the proposal may require additional staff and resources to make sure the attestation of compliance is included in the report that is being submitted to the Commission. If enacted, the Commission estimates a one-time cost of approximately \$40,000 to promulgate rulemaking.

Fiscal impact provided by the Oklahoma Corporation Commission.
