**Bill Summary and
Fiscal Analysis:**

SB 230 provides that a certified copy of an original transcript shall be furnished by the court to all parties without charge. The Administrative Office of the Courts(AOC) notes that the majority of court reporters use these fees to supplement their income. The AOC fears that the elimination of these fees could cause a mass exodus of court reporters and bring court operations to a halt. The AOC states a salary increase for court reporters would be required to ensure continuity for compensation and operations.
