17 and providing an effective date.

18 BE IT ENACTED BY THE PEOPLE OF THE STATE OF OKLAHOMA:

19 SECTION 1. NEW LAW A new section of law to be codified  
20 in the Oklahoma Statutes as Section 3401 of Title 63, unless there  
21 is created a duplication in numbering, reads as follows:

22 This act shall be known and may be cited as the "Lori Brand  
23 Patient Bill of Rights Act of 2025".

24 SECTION 2. NEW LAW A new section of law to be codified  
in the Oklahoma Statutes as Section 3401.1 of Title 63, unless there  
is created a duplication in numbering, reads as follows:

1       A. Each patient treated in this state shall have the following  
2 rights when being treated:

3       1. The right to considerate and respectful care, provided in a  
4 safe environment, free from all forms of abuse, neglect, harassment,  
5 and exploitation;

6       2. To receive information in a manner that he or she  
7 understands. Communications with the patient shall be effective and  
8 provided in a manner that facilitates understanding by the patient.  
9 Written information provided will be appropriate to the age,  
10 understanding, and, as appropriate, the language of the patient. As  
11 appropriate, communications specific to the vision-, speech-,  
12 hearing-, cognitive-, and language-impaired patient will be  
13 provided. The hospital shall meet the requirements of federal  
14 regulations that require program and facility accessibility;

15       3. To receive as much information about any proposed treatment  
16 or procedure as he or she may need in order to give informed consent  
17 or to refuse the course of treatment. Except in emergencies, this  
18 shall include a description of the procedure or treatment, the  
19 medically significant risks involved in the procedure or treatment,  
20 alternate courses of treatment or nontreatment and the risks  
21 involved in each, and the name of the person who will carry out the  
22 procedure or treatment;

23       4. To have an advance directive attorney for health care  
24 concerning treatment or to designate a surrogate decision-maker with

1 the expectation that the hospital will honor the intent of that  
2 directive to the extent allowed by law and hospital policy. The  
3 health care provider must advise a patient of his or her rights  
4 under state law and hospital policy to make informed medical  
5 decisions, ask if the patient has an advance directive, and include  
6 that information in patient records. The patient has the right to  
7 timely information about hospital policy that may limit its ability  
8 to implement a legally valid advance directive;

9 5. To participate in the development and implementation of his  
10 or her plan of care and actively participate in decisions regarding  
11 his or her medical care;

16 advance of, or when discontinuing, the provision of care. The  
17 patient may appoint a representative to receive this information  
18 should he or she so desire;

19 8. To have a family member or representative of his or her  
20 choice notified promptly of his or her admission to the hospital;

21 9. To request that no information regarding his or her  
22 admittance, diagnosis, or treatment be released;

23 10. To review the records and obtain a copy of the medical  
24 records pertaining to his or her medical care and to have the

1 information explained or interpreted as necessary, except when  
2 restricted by law;

3 11. To reasonable continuity of care, when appropriate, and to  
4 be informed by the doctor and other caregivers of available and  
5 realistic patient care options when hospital care is no longer  
6 appropriate;

7 12. To confidential treatment of all communications and records  
8 pertaining to his or her care and stay at the hospital;

9 13. To expect that, within its capability, capacity, and  
10 policies, the hospital will make a reasonable response to the  
11 request of a patient for appropriate and medically directed care and  
12 services. The hospital must provide evaluation, service, and a  
13 referral as indicated by the urgency of the case. When medically  
14 appropriate and legally permissible, or when a patient has requested  
15 a transfer, that patient may be transferred to another facility.  
16 That facility must have first accepted the patient for transfer.  
17 The patient must also have the benefit of the complete information  
18 and explanation concerning the need for, risks and benefits of, and  
19 alternatives to such a transfer;

20 14. The patient or patient's representative has the right to  
21 participate in the consideration of ethical issues that might arise  
22 in the care of the patient. The hospital shall have a mechanism for  
23 the consideration of ethical issues arising in the care of patients  
24

1 and to provide education to caregivers and patients on ethical  
2 issues in health care;

3 15. To be advised of the hospital's complaint or grievance  
4 process should the patient wish to communicate a concern regarding  
5 the quality of care he or she receives. This includes whom to  
6 contact to file a complaint. The patient will be provided with a  
7 written notice of the complaint determination that contains the name  
8 of the hospital's contact person, the steps taken on his or her  
9 behalf to investigate the complaint, the results of the complaint  
10 and, when possible, the resolution of the complaint concerning the  
11 quality of care;

12 16. To examine and receive an explanation of his or her bill  
13 regardless of source of payment;

14 17. To remain free from restraints or seclusion in any forms  
15 that are not medically necessary or are used as a means of coercion,  
16 discipline, convenience, or retaliation by staff;

16 or not follow his or her doctor's orders;
