Bill Analysis

SB 651 creates the Municipal Parking Benefit District Act. The measure authorizes the governing body of a municipality to create one or more parking benefit districts. The creation of such a district shall be preceded by a public hearing, for which the governing body shall provide notice 10-30 days before the meeting. At the hearing, the governing body shall discuss the boundaries of the proposed district as well as allow interested parties to comment on the proposal. The governing body may also create an advisory body for each parking benefit district created. The body shall consist of 3-7 members. Funds received from the district may be used to fund improvements and repairs to the district.
